PROFESSIONAL EXPERIENCE

Full Stack Developer
Nicolas Grenier • Remote
2020 - Present

- Worked with the artist Nicolas Grenier on multiple projects.
- Reached hundreds of users taking part in custom-built interactive web-based surveys on desktop and mobile.
- Created novel dynamic data visualizations using the collected data.

Full Stack Developer
Quebec Blue Cross • Remote
Apr 2022 - May 2023

- Lead the development of a large in-house web application used to monitor and interact with repositories, CI/CD pipelines and Kubernetes clusters.
- Ported over 10k lines of legacy Python code to modern standards.
- Implemented a robust OpenAPI specification to link front and back ends.
- Designed and built a frontend application used daily by dozens of the company's developers.

Full Stack Developer
Norwegian Refugee Council • Remote
Feb 2021 - Dec 2021

- Collaborated with a small team of developers and designers to create a case management tool for the humanitarian sector.
- Wrote a workflow orchestration library used to enforce constraints on data entry.
- Developed a mobile application for Android devices.
